## EXPERIENCE

### UX DESIGNER - Associate Usability Analyst

Aspen Technology                    December 2018 - May 2019

Created designs for the future of software products. Worked with other designers, developers, and stakeholders to figure out how to best find, evaluate, and solve user issues. Collaborated with team members on fast-paced projects to deliver solutions to complex problems.

### UX DESIGNER - Short Term Contract

Gataca Digital ID                    July - August 2018

Lead the entire UX Design process; organizing and conducting design workshops, conducting and synthesizing User Research, creating Low, Mid, and Hi-Fi Wireframes, conducting and synthesizing User Tests.

### UX DESIGN CONSULTANT THROUGH GENERAL ASSEMBLY

Wanderu User Experience Project          April - May 2018

Worked on a team, directly with Wanderu. Interviewed users, discovered four problems. Designed a solution with a collaborative design studio. Created and tested multiple iterations, led the synthesis of the tests.

### USER EXPERIENCE PRACTICAL TRAINING

General Assembly                    March - May 2018

Completed a 10 Week, 400 Hours User Experience Design Immersive course at "General Assembly - Boston". Deepened my knowledge in the field, worked with clients, got hands-on experience in both individual and group projects and discovered other areas of UX Design

### USER INTERFACE & GRAPHIC DESIGNER - INTERN

Nova - Bermuda                    June - July 2016

Spearheaded the Design department for marketing and event planning. Developed a User Interface Design for a web application being developed for the Re-insurance Industry
